

ROSS & ASSOCIATES
INSURANCE SERVICES, INC.

Tim Cockburn

timc@ross-ins.com

We go the distance to serve you.

Tim Cockburn came to Ross & Associates Insurance Services, Inc. at its inception after spending sixteen years in the building industry as a business owner, commercial project manager, marketing manager for several building material suppliers and sales manager for a local specialty building contractor. He has been licensed in the insurance industry since 1997 after seeing a need for his background in the insurance business. He specializes in the areas of construction, architectural design, and product manufacturing and distribution.

Having worked in and around the construction industry, Tim brings hands-on knowledge of what issues a client has as they attempt to handle the often complicated issues in the insurance industry. During his years in the construction industry, he worked with architects, contractors, engineers, building officials, inspectors, building owners and others to facilitate their needs on and off the jobsite. With this experience, Tim excels in putting an insurance program together that truly meets the clients' needs, whether it is liability, property, auto, builders risk, professional liability, workers compensation or bonding.

Tim is a graduate of the University of Oregon with a Bachelor of Science in Finance Business & Construction. He is active in the Construction Specification Institute (CSI), American Institute of Architects, (AIA) Home Builders Association (HBA) and University of Oregon Alumni Association.

Tim enjoys outdoor activities such as fishing, bird hunting, camping, hiking and woodworking. He works on Habitat for Humanity projects throughout the year and volunteers time at his church, as well.
